SMILE

01

MINK PREMIUM EYELASH

Mink lashes are one of the most commonly requested types of lash extensions. Mink lashes are handmade and derived from Korea synthetic fiber. Mink lashes create a light, feathered, fluttery, natural appearance. They are reportedly the most comfortable on the eyesMink lashes are incredibly lightweight, versatile and usually lighter in color, making them perfect for lighter-haired clients.

02

SILK PREMIUM EYELASH

Silk eyelashes are not actually made of real silk as the material is far too soft and wouldn't be able to hold the shape and curl that we expect from our eyelash extensions.However, these lashes have fine silky fibers and flexibility, which allow them to hold their shape, as long as you look after them. Plus,you'll have a variety of styles to choose from.

CASHMERE PREMIUM EYELASH

Cashmere lashes, the same as Silk lashes are applied to each individual natural eyelash one by one for a natural, beautiful and luscious look. Less weight (up to 60% lighter) means less strain on the host lash preventing premature lash fall. Cashmere lashes are matte exactly like the natural lashes, giving a very natural look.

04

FLAT PREMIUM EYELASH

Flat lashes are eyelash extensions with a flatter base – it's shaped like a rectangle where the sides are concave i.e. the sides curve inwards. To create this flatter shape, the ends are compressed during the manufacturing process and it's the width at the base that determines the given thickness.

Benefits

Benefits of Manufacturing with Us

**Tried, tested and proven products by thousands of existing lash artists and salons locally and worldwide*
**Our In-house exclusive formulation*
**High quality control and consistent quality checks*

Benefits Of Private Label OEM

Creates a great branding and image for your salon and shop. It is a lot more economical for you as a lash artist/salon owner to carry your own line of products as it is cheaper to use. Also, gives you additional source of retail income as you can sell to your pre-existing and new client base. It provides a more personalised and exclusive experience for your clients. It's a quick and effective way to grow and share with your existing customers good products that you enjoy using.
